StepSafe Technologies Inc. is not registered for GST/HST, so no HST is charged.

About the goods. The StepSafe SS-01 is a GPS location device worn by a child for their safety. It shows the child's location to their parent or caregiver in the StepSafe app and sends an alert when the child leaves a safe zone the parent sets. It shares location only. It has no microphone, no listen-in feature and no recording.

Terms of payment. Paid in full when the order is placed, through our secure online checkout. All amounts are in Canadian dollars. Devices ship in early 2027.

PAYMENT RECEIVED (COMPLETED BY STEPSAFE ON AN INVOICE)

Date paid _____ Amount paid _____ Method _____

Using Ontario Autism Program funding? Ontario's published expenses list for childhood budgets and interim one-time funding names GPS tracking devices under technology, one technology item every two years. Your purchase may be eligible, but the program decides, not StepSafe. Ontario asks families to keep invoices and proof of payment (a debit, credit card or PayPal statement) for 7 years, dated within your funding period. For core clinical services, technology needs a letter of recommendation from your regulated professional, sent with the invoice. Check first: ontario.ca/page/ontario-autism-program or AccessOAP at 1-833-425-2445.

Eligibility is decided by each program. StepSafe does not guarantee funding. This is not medical, tax or legal advice. Need a quote or invoice filled in with your name and order number? Email support@stepsafetech.com.
